At JIMTOF, top domestic and foreign manufacturers gather and compete to present new products and technologies. This is because all the makers regard JIMTOF as a place where they unveil technologies that they have been developing over many years.

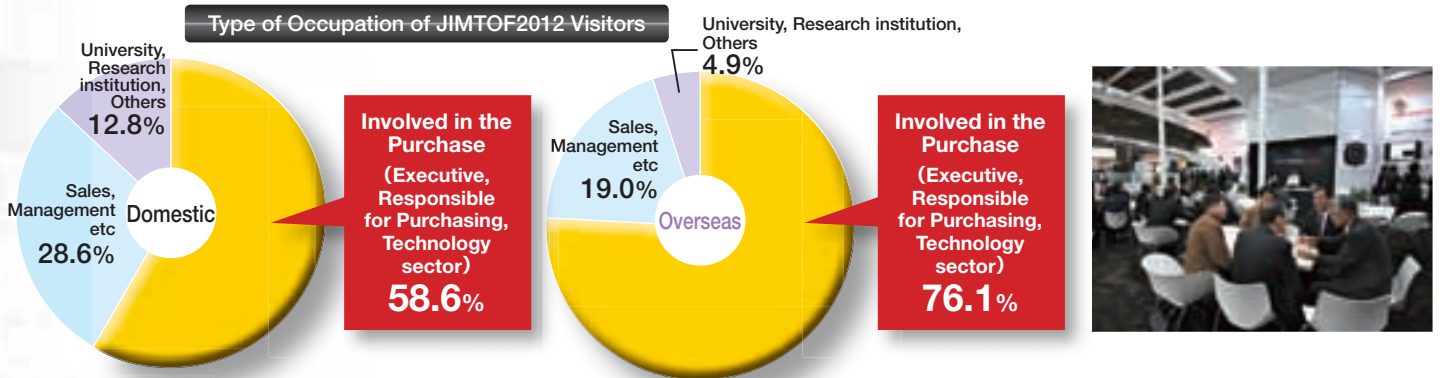

Moreover, JIMTOF has always been well-received by users and buyers visiting from around the world as a trade show where state-of-the-art and high-performance machine tools and peripherals are first introduced.

JIMTOF has supported the growth of the Japanese manufacturing industry for more than half a century. This trade fair will convey the Mono-Zukuri DNA, which has been passed down to the world, to the future.

## Many opportunities for business deals, with a number of visitors who are involved in the purchase of products

There are many visitors to JIMTOF who are executives and people in charge of purchase, or technical people who actually handle machine tools and are involved in purchase. This trade fair provides opportunities to directly appeal your products and technologies to make business deals.

## The trade fair that is among the first in the world to show cutting-edge technologies

JIMTOF is highly appreciated by industry participants at home and abroad as a place that is among the first to introduce most advanced technologies, as indicated by many exhibitors that develop new products with an eye to JIMTOF. A number of exhibitors not only display new products but also demonstrate them to call attention to the strengths of the products more effectively.

As a good point about JIMTOF, exhibitors brought their new products that they had developed for release at JIMTOF.

JIMTOF is a very good trade fair where we are surprised and inspired by Japanese technologies.

The trade show was very helpful, since we could get a close look at new products moving actually.

This trade fair offered us many opportunities to meet a number of new companies. Thanks to JIMTOF, we could build some new relationships.

## 2-4 Application Acceptance and Booth Adjustment

After receipt of the application, Organizers will notify the applicant in writing as the official acknowledgement by the middle of January 2014. However, there might be cases that Organizers exercise its discretion to limit the number of the booths requested or cannot accommodate the application taking into account previous exhibit records of applicants when total demand exceeds the exhibition floor capacity or reviews of the application reveal irregularities. In these cases, Organizers will notify such applicants to that effect in writing by the middle of January, 2010. In this regard, Organizers or the cooperating organizations shall not be liable for any damage caused by rejection of the application or reducing the number of booths.

## 2-5 Payment Terms

Organizers will send the applicant the first invoice for the half amount of the total booth rental fees as subscription money, together with the official acknowledgement by the middle of January, 2014, which the applicant shall remit to the specified bank account by the due date stated on the invoice. Then, Organizers will send the applicant the second invoice for the balance of the total booth rental fees by the end of March, 2014, which the applicant shall remit to the specified bank account by the due date stated on the invoice. (Bank handling charges are the liability of the applicant.) In case the applicant is a member of cooperating organizations, the organization may handle billing and collection of the fees on behalf of Organizers.

## 2-6 Cancellation or Modification of Application

Organizers will not accept cancellation or modification of the application after it is approved, except for the case in which Organizers exceptionally approve them after receipt of written requests from the applicant. In case of cancellation, Organizers, or the cooperating organizations will not refund the paid-up amount to the applicant, regardless of the reasons for it.

## 2-7 Exhibition Space Allocation

Organizers will decide on the allocation of the exhibition space (please refer to Article 3 of the Exhibition Agreement, page 11) and will notify the applicant of the space allocation, together with the second invoice. The applicant has no right to oppose or demand changes with respect to the allocated exhibition space. Also, the applicant is not allowed to conduct such actions on part or all of the allocated exhibition space as selling/buying, collateralizing, transfer or lending with or to any third party, except for co-applicants. (The co-applicant is a company which wants to share the same exhibition space with the principal applicant, and approved by Organizers beforehand.)

## 2-8 Exhibition Agreement

The exhibition agreement shall take effect from the date when Organizers confirm the full payment of the booth rental fees by the applicant. After the effective date, the applicant will have the right as an exhibitor to use the allocated exhibition space. If the payment is not made by the specified due date, the agreement shall not take effect, and therefore the applicant will not have the right to use the exhibition space. In this case, Organizers, or the cooperating organizations will not refund the paid-up amount to the applicant, regardless of the reasons for it.

## 2-9 Cancellation or Modification of Exhibition Agreement

Organizers will not accept cancellation or modification of the exhibition agreement after it is concluded, except for the case in which Organizers exceptionally approve them after receipt of written requests from the exhibitor. In case of cancellation or modification, Organizers will not refund the paid-up amount to the exhibitor because of the cancellation or the reduced amount because of the modification, regardless of the reasons for them. If the exhibitor loses the qualification of the member of cooperating organizations or overseas associations, the agreement shall be automatically changed, and the status of the exhibitor is also changed to the "Non-member". In this case, Organizers will additionally charge the exhibitor with the difference of the booth rental fees. If the exhibitor does not start using the allocated exhibition space by 13:00 on October 29, 2014, Organizers will take it as the cancellation of the agreement, and the exhibitor will lose the right to use the space. In this case, Organizers will not refund the paid-up amount to the exhibitor. Furthermore, Organizers, or the cooperating organizations shall not be liable for any damage caused by such actions.

## 3. Display and Decoration

### 3-1 Decoration Height Requirements

All decorations (including cabinets, audio visual materials and booth interior lighting) must be confined to a maximum height of 3.0m. However, the height limit for decorations rises up to 6.0m in the area which is 3.0m away from passage-ways, adjacent booths and walls (refer to the pictures below. Banners are the exceptions. Please see "3-3. Banners"). For reasons of fire safety, the construction of roofed or covered booths and decorations over 3.0m high are limited to the approval of Organizers. Exhibitors wishing to include any of these contradictions must apply and submit blueprints to Organizers to obtain permission. After consulting with the Fire Department, Organizers will study the drawings and advise the Exhibitor as to the location of smoke detectors, emergency aisles and if needed to install additional water sprinklers. There is no height limit for the exhibits, however, please check with the application form and notify Organizers when the exhibit is over 3.0m.

Height Limit A :  Lower Than 3.0m

**In the case of double-row booths, decorations higher than 3.0m are not permitted (as well as thin panels or signs).**

B :  Lower Than 6.0m

### 3-2 Eased restrictions on the height for installation of lighting equipment

Only when exhibitors, which occupy 15 or more exhibition stand units, meet the following requirements, they shall be able to install lighting equipment measuring up to six meters in height, with no setback from the edge of passage and a one-meter setback from the next exhibition stand.

- (1) If lighting equipment measuring up to three meters in height cannot apply enough light in showing exhibits to visitors due to the characteristics of these exhibits (for example, when a large machine is displayed at the edge of a passage)
- (2) If it is considered that the lighting equipment measuring more than three meters, which should be placed in an exhibition stand set adjacent to a wall of the venue, does not affect the view of other companies' exhibition stands
- (3) The exhibitor has submitted an installment plan document to the organizer in advance and has obtained permission.
- (4) The lighting equipment that is allowed to be installed should meet the following requirements:
  - ① The lighting equipment should consist of lighting that applies light to exhibits and the support structure and should not have a decorative factor.
  - ② Their shapes should enable the lighting to be installed on the top of the support structure.
  - ③ The support structure must be necessary for the installation of the lighting.
  - ④ The lighting and its support structure should not have any factors suggestive of certain companies such as the name of exhibitors and logos.
  - ⑤ The color of appearance should be a simple color such as white, black, or silver, and should not clearly stand out.

### 3-3 Two-Story Booth (Three or more stories are not permitted.)

At JIMTOF 2014 there will be no fees levied on 2nd-story floor space; however, a 2-story structure may only be erected by exhibitors who have contracted for 15 booths or more at that location. Also, 2nd-story space may only be used for sales meetings. Full details of conditions applying to such structures will be made available in the Exhibitors Manual.

### 3-4 Banners

For security reasons, Organizers will make and put up all banners for the Exhibitors at the Exhibitors' expense.

### 3-5 Decoration Materials

All materials used for decorations must be approved as fire proofed by the Japanese Fire Defense Law. Exhibitors wishing to use materials approved by overseas laws are required to submit a copy of certification (should be with Japanese translation) and a sample of the material to Organizers. Organizers will submit those documents to the fire authorities, and materials which are approved by the authorities can be used at the fair.

\*For more details about displays and decorations, including regulations above, please refer to "Exhibitors Manual".

## 4. Handling of Fire and Hazardous Materials

The exhibitor is not permitted to use open flame or to bring hazardous materials in the exhibition area by The Fire Prevention Ordinance in Tokyo, except for the case in which they obtain the written permission in advance from the local fire station under jurisdiction. Even in the case of the permission from the fire authorities, there might be a limit to the amount of hazardous materials to be brought in, which is determined booths. Also, the exhibitor is not permitted to operate machines containing oil in excess of specified volume.

The "open flame" means a device or an object that generates a flame or spark, or a device, the heating unit of which is exposed to the outside. The "hazardous materials" indicates gunpowder, combustible gas, and other materials listed on the annexed table of the Fire Service Law, 4th group. (See the annexed table.) The exhibitor who wants to use these hazardous materials in the exhibition is requested to state to that effect in the application form. Also, the exhibitor can contact Organizers for the reference materials or more detailed information.

# JIMTOF2014 (The 27th Japan International Machine Tool Fair) Exhibition Agreement

The Applicant and Tokyo Big Sight Inc. (hereinafter referred to as "TBSI") agree with and observe this Exhibition Agreement for JIMTOF2014 (The 27th Japan International Machine Tool Fair) (hereinafter referred to as "JIMTOF2014") to be held from October 30 to November 4, 2014.

## ■ Article 1 - Application for Exhibition and Agreement

- (1) The applications for both the exhibition and the Exhibition Agreement shall take effect when TBSI receives the application form from the Applicant.
- (2) In case that the Applicant holds a membership of the organizer or the cooperating organizations (hereinafter referred to as the "Member"), its submission of the application to the organization of which the Applicant is a member shall be deemed to be a formal application for both the exhibition and the Exhibition Agreement.

## ■ Article 2 - Subscription Fee

- (1) TBSI shall send the Applicant the first invoice for the half amount of the total booth rental fees as subscription fee that shall be calculated on the size of the exhibition space allocated as stipulated in Article 3 together with the official acknowledgement of the exhibition application. The Applicant shall pay the amount by remittance to the bank account by the due date, all of which are as per specified in the invoice. In cases that TBSI exceptionally approves the written requests of the application cancellation from the Applicant or the payment of the subscription fee from the Applicant is not confirmed by TBSI by the due date, the application shall be deemed cancelled and lost its effect. In this case, TBSI shall not be required to refund any amount of fees already received, regardless of the reason.
- (2) In case that the Applicant is a Member and the organization itself charges the Applicant with the subscription fee, the payment to the organization by the Applicant shall be deemed the payment to TBSI. (The same shall apply with respect to both the payment and receipt of the subscription fee under this Agreement.)

## ■ Article 3 - Exhibition Size and the Location

The size of the exhibition space shall be determined by TBSI through booth adjustment based on the number of booths applied for by the Applicant, and notified the Applicant with the official acknowledgement. TBSI shall notify the Applicant of the location of the exhibition space after the booth allocation is determined. The Applicant shall have no right to object to the allocation of the exhibition space or request change of the exhibition space determined by TBSI. (The size and location of the exhibition space are hereinafter referred to as the "Exhibition Space".)

## ■ Article 4 - Booth Rental Fees

- (1) TBSI shall send the Applicant the second invoice for the remaining half amount of the total booth rental fees. The Applicant shall pay the amount by remittance to the bank account by the due date, all of which are as per specified in the invoice.
- (2) In case that the Applicant is a Member and the organization itself charges the Applicant with the booth rental fees, the payment to the organization by the Applicant shall be deemed the payment to TBSI. (The same shall apply with respect to both the payment and receipt of the booth rental fees under this Agreement.)

## ■ Article 5 - Exhibition Agreement and Usufructuary Right to Exhibition Space

The Exhibition Agreement shall take effect from the date when TBSI confirms the full payment of the booth rental fees by the Applicant. After the effective date, the Applicant shall have the right to use the Exhibition Space as an exhibitor. In cases that TBSI exceptionally approves the written requests of the cancellation from the Applicant after receipt of the full payment of the booth rental fees or the full payment by the Applicant is not confirmed by TBSI by the due date, the Exhibition Agreement shall be deemed cancelled and the Applicant loses the right to use the Exhibition Space. In this case, TBSI shall not be required to refund any amount of fees already received, regardless of the reason.

## ■ Article 6 - Period of Usufructuary Right

The Exhibitor may use the Exhibition Space for the fair period, from October 30 to November 4, 2014, and the delivery/removal periods as assigned by TBSI; provided that the Exhibitor shall lose its usufructuary right once the Exhibitor is deemed by TBSI to have restored the Exhibition Space to its original condition as stipulated in Article 16 prior to the expiration of said period.

## ■ Article 7 - Prohibition of Assignment of Exhibition Space

The Exhibitor may not pledge, hypothecate, assign or sublet all or any part of the Exhibition Space to any third party, whether for consideration or otherwise, nor exchange it with another Exhibitor; provided, however, that this shall not apply in case where a part of the Exhibition Space is to be used by or sublet to a Co-exhibitor or Represented company who has filed a prior written notification with and received approval from TBSI in advance.

In case of cancellation, TBSI shall not be required to refund any amount of fees already received, regardless of the reason. Provided further that even if such modification gives rise to a reduction of the amount of fees already received, TBSI shall not be required to refund any such fees. If the Exhibitor loses the qualification of the Member, the Agreement shall be automatically changed, and the status of the Exhibitor is also changed to the "Non-member". In this case, TBSI will additionally charge the Exhibitor with the difference of the booth rental fees.
- (2) If any of the following events should occur with the Exhibitor, TBSI may cancel or modify the Exhibition Agreement without any prior notification. In this case, TBSI shall not be required to refund any amount of fees already received, regardless of the reason, or shall not be liable for any resultant damage which may be incurred by the Exhibitor.
